Harman Kardon Allure

A hands-free intelligent speaker controlled by voice commands

Harman International, a leading name in the audio industry, has announced the availability of Harman Kardon Allure in India. An intelligent speaker with Amazon Alexa Voice Service, the Allure complements any home space with its stunning design and beautiful 360-degree Harman Kardon sound and was first unveiled at IFA Berlin in August 2017.

By pairing Harman Kardon's refined and powerful audio performance with Alexa's intuitive voice technology, Allure brings discerning music-lovers a richer, premium listening experience, anywhere anytime, around the home.

by voice commands. Just ask Alexa to play music, read the news, make purchases from Amazon.in, and more. Even in noisy environments, proprietary far-field voice technology allows the speaker to hear commands from a far distance. Alexa is always getting smarter and customers from India can enable over 11,000 skills - which makes using Harman Kardon Allure a truly personal experience.

With Alexa, users can enjoy skills from across sectors like Travel (Uber, Ola, Goibibo, Jet Airways), order Food and hear recipes (Faasos, Box8, Freshmenu, Zomato, Tarla Dalaal), get Sports & Entertainment updates (Amazon Prime Music, Saavn, ESPNcricinfo, Bollywood Hungama), News and Education (Times of India, NDTV, ABP Live, AajTak, Byju's), Home Services (UrbanClap, Housejoy) as well as control their Smart Home (Syska, Phillips, Silvan) with their voice.

The sturdy yet elegant transparent design of Allure blends into any interior with a subtle touch of delicacy and ease. Place it anywhere and the speaker will be able to fill any space with refined and powerful 360-degree Harman Kardon sound.

Harman Kardon Allure's stunning 360-degree ambient lighting design glows from within. The ambient light will react to the voice commands and move along with the rhythm of the music. ■

Price: INR 22,490
