Toll collections may see double-digit growth in FY20: Icra

Toll collections are likely to witness a double-digit growth in the next financial year, propelled by an increase in commercial vehicle sales and wholesale price index, rating agency Icra said on Thursday. "Driven by strong growth in medium and heavy commercial vehicles, along with an increase in WPI, toll collections are likely to witness a significant growth in 2019-20," Icra said, adding high growth in automotive sales will lead to traffic volumes. **PTI**
