

Banda Univ installs rooftop solar plant

LUCKNOW : Banda University of Agriculture and Technology installed 652 kWp of rooftop solar plant. Governor Ram Naik inaugurated it on September 26 in the presence of Surender Lal Goswami, vice chancellor, Banda University. Clean Max Solar has partnered with Banda University of Agriculture and Technology in setting up this solar plant. The project installed at the educational institute is investment free, risk free and hassle free; and will provide solar electricity at tariffs

cheaper than the prevailing grid electricity tariffs. The expected solar electricity generation for this project is 8,97,600 kWh per annum with estimated saving on electricity bills of Rs 45 lakh per annum for the next 25 years.
