## **Reliance on minerals imports risks green tech progress: ICRA**

ICRA on Wednesday said that benefits from the 38 critical mineral blocks that have been put on sale are not likely to accrue in the current decade ending 2030 as the mines are not fully explored. "The preliminary stage of exploration for most of the domestic blocks that are currently being auctioned suggests that their commercialisation and associated benefits are unlikely to fully accrue in the current decade ending 2030," ICRA said in a statement. **PTI**
