

General insurers' GDPI may rise 32% by FY26: ICRA

The Hindu Bureau

HYDERABAD

Gross direct premium income (GDPI) of general insurers in India is expected to touch ₹3.7 trillion by 2025-26, which will be an increase of 32% from the ₹2.8 trillion registered in 2023-24, ICRA said.

In the current fiscal, the GDPI is likely to increase 15.5% on the back of continued strong growth in the health segment, it said. Health segment was also behind the robust growth of insurance in FY24.
